Company Profile Qualification & Honor

Zhejiang Deshenglong Curtain Co., Ltd (DSL) is located in Lanxi city, a beautiful township of Chinese Orchid, nearby China National Highway and with 0.6 miles away from the entrance of Expressway, enjoying extremely convenient transportation.

We are the professional manufacturer who focus on Coated Aluminum Slats for Venetian Blinds in China since 1994, and can also produce head and bottom rail in different specifications. We can provide you the best solution for various kinds of components and blinds machines. We have 5 painting lines, 2 wood grain lines, 3 cutting lines, the production capacity for Coated Aluminum Slats is annually about 6000 tons.

Currently, we have more than 2000 valued customers in domestic market. We are actively developing international market and have established business relationship with over 80 countries, spread all over Europe, Asia, Americas, Africa and Middle East areas Etc.

Since established, DSL has been adhering to the strategies of winning with quality and multi-pole market, fully implementing zero defects (ZD) and total quality management (TQM). We pursue high quality to meet our client's demand and sticking to the tenet of sincerity. DSL will always express warmest welcome to any domestic or international clients, providing superior products and wholeheartedly service for all of you.

Elite Team Bright Future

Deshenglong has trained an excellent team which is efficient, professional and responsible in management, research and development, marketing and maintenance.

Scientific Management Lean Production

Deshenglong adheres to professional, standard and market-based strategic guiding ideas, manages the company in a comprehensive and scientific way and sets strict demands on each link including research, development, production and sales.

Detail decides success or failure; execution determines strategies

Deshenglong introduces international advanced production lines and supporting devices, owns a strict quality control system and appoints special quality inspection groups to randomly or comprehensively inspect finished products or semi-finished products in each production link.

Deshenglong also set up an advanced product laboratory which keeps exploring, innovating and using popular processing technologies to improve product quality; by adopting reliable and durable accessories, products' service life can be prolonged.
